

I am writing to ask you to check out the Iraq Moratorium
and to take part in it.

The **x12** on the front means multiply by 12.

The population of the US is roughly 12 times that of Iraq.

So when the news reports that 2,000,000 Iraqis have fled their devastated country, imagine 24,000,000 Americans camped out in Canada or Mexico! In 2005, 122,000 boys and girls died there before the age of five. Here, that'd be 1,464,000 kids dead in a year, most from malnutrition, pneumonia, diarrhea.

How long must this horror drag on? Polls say 70% of the people of this country want this war over with. The Congress we voted for in 2006 to end it has done almost nothing. **We have to turn up the heat.**

Join with me and countless thousands in the Iraq Moratorium.

On the **Third Friday of every month**, break with your daily routine to take some action, by yourself or with others to end the war. Write an elected official, join a vigil, wear a black armband or ribbon. Do something! This month, I am planning to:

Place
Stamp
Here

Signed,
